

MUNICIPAL CONTRACTORS

LMK Technologies' licensed Municipal Contractors have had rigorous training both at the LMK training facility in Ottawa, Illinois and in the field. These independent installers provide competitive municipal bids and will mobilize to install CIPP throughout the country. If you don't find an installer near your project, please contact LMK Technologies at 815-640-9302.

Technology Key

- **T-Liner®** - One-piece Main-to-Lateral homogeneous CIPP liner with lateral lengths up to 200 ft. Utilizes an outside cleanout during installation. **ASTM F2561 Compliant**
- **Shorty™** - One-piece Main-to-Lateral homogeneous CIPP liner with lateral lengths up to 10 ft. Does not require an outside cleanout.
- **Stubby™** - One-piece Main-to-Lateral homogeneous CIPP liner with a 6 inch lateral length.
- **VAC-A-TEE®** - Outside cleanout installed using hydro or vacuum excavation.
- **Sectional** - Mainline Spot Repair inverted through point of repair.
- **Lateral** - Performance Liner® lateral lining installed through an inversion process utilizing one access point.
